

Pharmacy Career Pathways Student Interest Form

Introduction

The Pharmacy Career Pathways form was developed for students to support them in their journey of career exploration. There is a wealth of career opportunities for candidates with a Doctor of Pharmacy degree however, it can be difficult at times to explore all of those opportunities while working to achieve your degree. Our goal is to provide you with the tools needed, as well as scheduled check-ins with yourself & your mentor to support and encourage you throughout your journey.

Completion of this form is a required component of your portfolio in your P1 through P4 years and will be reviewed and discussed with you by your mentor.

We understand that your interests may change throughout your pharmacy education & career and encourage you to answer the following questions based on your interests at this time. Please save a copy of your responses in a place that you can refer back to it as you progress through your education.

Throughout your time at the UA College of Pharmacy we will be your partner in this process. You can look forward to the following career pathway check-ins.

Pharmacy Career Pathways Timeline

- P1 Year
 - September
