

College of Pharmacy Undergraduate Ambassadors 2024-2025

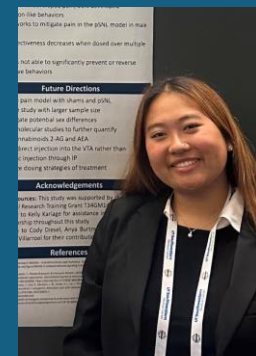

Arri Capones

Hometown: Mesa, AZ

Academic Program: PharmSci major

Why are you an ambassador? When I attended Admitted Students Day, my College of Pharmacy ambassador made me feel so welcomed and was so excited to connect with students. I was a little intimidated joining the university, but the ambassador was able to reassure me that I made the right choice. From then on, I wanted to give prospective students that experience of feeling welcomed.

Riley Haveman

Hometown: Surprise, AZ

Academic Program: PharmSci major, Biochemistry and Applied Biotechnology minors.

Why are you an ambassador? I wanted to be an ambassador ever since I took my tour of the health campus during my last year of high school. Additionally, I knew that I wanted to go into research ever since high school and realized that people may not consider this college as an option for them at first. So, I wanted to become that representation for students like me.

Zach Howard

Hometown: Peoria, AZ

Academic Program: PharmSci major

Why are you an ambassador? . My experience touring U of A is what made me want to attend and I wanted to hopefully be able to give other prospective students the same feeling that I got. I love the College of Pharmacy because it has the best faculty and staff who make it feel like home for every student.

Kate Lee

Hometown: San Jose, CA

Academic Program: PharmD Early Assurance

Why are you an ambassador? I wanted to be an ambassador so I could be a friendly face to prospective students and help them learn more about all the amazing opportunities the College of Pharmacy has to offer. I also wanted to provide prospective students the same guidance and support I've received from previous College of Pharmacy ambassadors when I was going through the college application process.

Priya Ritzberg

Hometown: Scottsdale, AZ

Academic Program: PharmSci major, Public Health and Biochemistry minors

Why are you an ambassador? I wanted to become a College of Pharmacy ambassador because I felt it would be a good opportunity to promote the college and would serve as a good opportunity to network! I love the College of Pharmacy because the program is smaller and helps facilitate some of the connections that cannot be made so easily on a larger level.

Sudam Song

Hometown: Anyang, South Korea

Academic Program: PharmSci major

Why are you an ambassador? Since I am currently working toward my goal of entering pharmacy school, I saw this role as an opportunity to get involved and contribute to the pharmacy community. Additionally, this role offers valuable leadership experience, helping me develop communication skills, and teamwork while preparing for my future career in pharmacy.
