Vision

The Department of Pharmacy Practice and Science will be comprised of innovative and exceptional faculty who are leaders in training highly skilled, inclusive pharmacy practitioners, scientists, and educators to enhance the lives and provide equitable services to people across the globe.

Mission

To educate leaders in pharmacy and its foundation sciences, create and disseminate new knowledge, and enhance the health and wellness of individuals in diverse and global communities.

Values

Excellence and Integrity
Ingenuity, Innovation, and Adaptability
Inter-professionalism
Teamwork and Collegiality
Diversity and Inclusion
